2

We emphasize the experience of our recruitment team and the use of analytical tools.

"Your search is our recruiting process"

Our strategic approach to talent acquisition is as follows:

-  Active and direct talent search, in line with the client's requirements.
-  Resume pre-screening.
-  Interview process.
-  Required psychometric testing.
-  Follow-up on the process with both candidate and company.
-  Candidate acceptance.
-  Employment background investigation.

Other services:

Benchmarking

We conduct a comparative analysis to benchmark a company's compensation (salaries, bonuses, benefits, etc.) against the relevant labor market. The goal is to ensure that remuneration policies are competitive, fair, and aligned with regulations and your business strategy.

Background check

We verify candidates to confirm biographical and employment information. The goal is to assess the suitability and reliability of the person being considered for a given position, always within the framework of applicable laws.
